OPIS PRODUKTU

LDT322V

If you're looking for a small sized commercial panel with exceptional picture quality and operability that is also energy efficient, then the Mitsubishi Electric LDT322V 32" (80 cm) WXGA LCD display is just what you need.

Specifically engineered for use in commercial/industrial public display applications, the LDT322V is ideal for displaying video or messaging content. It has a 1366 x 768 native resolution for eye-catching video and data images, as well as a built-in scheduling utility for setting and automating On/Off times. It also incorporates Motion shift and S-Gamma control to extend panel life and prevent image retention.

In keeping with Mitsubishi Electric's global vision for environmental reform, the LDT322V has been designed to be very energy efficient whether it be in display mode (40% reduction in operating power consumption compared to its predecessor) or standby (less than 1Watt in standby mode).

For quality display performance in retail locations, corporate boardrooms, classrooms or kiosks, you'll find all the features you need in the LDT322V display.

Key Features:

Ideal for information displays, public displays and digital signage.

Rapid 6.5 ms Response Time – Enjoy clear, fast moving pictures free of "ghosting".

High 2500:1 Contrast Ratio - For excellent high-clarity colour image reproduction from data and video sources.

Screen Saving Function – Four separate options (Gamma, Cooling Fan, Brightness and Motion) provide increased protection against image retention.

Energy Saving LCD Panel - The LDT322V is equipped with energy efficient components for reduced power consumption and environmentally friendly performance.

Scheduling - Display during the hours you want, with flexible control over the various inputs.

Tile Matrix - Create data/video walls with multiple LCD displays easily thanks to the simple OSD setup options.

Picture-in-Picture - Display two active inputs simultaneously (PC Mode only).

RS232 Communication - For remote management and diagnostic testing of the display.

Panel Lock Out - Prevents unauthorised tampering of the display controls.

VESA Compliant - Allows for use with VESA standard mounting arms or brackets.

Optional speakers and stands available.

Three year limited warranty.
